PROFESSIONAL SUMMARY

Experienced Software Engineer with a passion for creating attractive and interactive websites that meet customer needs and exceed expectations. Well-versed in front-end development technologies such as HTML, CSS, and JavaScript. I collaborate effectively with cross-functional teams, leveraging my problem-solving skills to debug complex code issues and optimize system performance. Committed to staying abreast of industry trends, I bring a continuous drive for learning and improvement to deliver cutting-edge features. Proactive and adaptable, I thrive in dynamic environments and am ready to contribute my technical skills and collaborative spirit to a forward-thinking team.

SKILLS

- Responsive design
- RESTful APIs
- Agile development methodology
- Scrum Framework
- UX Design
- Front End Web Development
- Performance Optimization
- JavaScript expertise
- Website Analytics Tools
- Software Best Practices
- Software Testing
- Adobe Creative Suite Applications

WORK HISTORY

Frontend Engineer, 02/2024 - Current

Raotech – Lagos Nigeria

- Enhanced user experience by implementing responsive web designs and optimizing site performance.
- Developed streamlined coding processes for improved efficiency and faster project completion.
- Collaborated with cross-functional teams to design, develop, and launch new features for web applications.
- Conducted thorough code reviews ensuring high-quality code standards and adherence to best practices.
- Optimized website load times by utilizing efficient front-end technologies and caching techniques.

Frontend Engineer, 04/2023

Myrtle Technologies

- Developed reusable front-end components and libraries for future use
- Created user interface designs, prototypes, wireframes, and mockups
- Implemented responsive design techniques to ensure compatibility with a range of devices
- Collaborated with other developers to integrate UI elements into applications

- Conducted usability tests to identify areas of improvement in the UX and UI design process
- Built single page applications utilizing JavaScript frameworks such as React and AngularJS.

Frontend Engineer, 06/2022

Gembrs

- Validated code for proper structuring, security and compatibility with different browsers, devices or operating systems
- Designed visual and graphic images to use on multiple platforms
- Troubleshot, tested and remedied issues before software deployment
- Maintained strong education in latest technologies, software and hardware products for use in various projects
- Established hosting for each website and completed go-live process by uploading sites to host account
- Completed design projects to meet budget, equipment, performance and legal requirements

Defined and conducted design processes at all stages, including research, conceptualization, testing and implementation.

Coding Tutor

Coderina

- Developed lesson plans to teach coding fundamentals and principles to students
- Researched and recommended software tools and applications for coding instruction
- Instructed students on the use of programming languages, such as HTML, CSS, JavaScript, Python, Java and C++
- Assessed student progress by conducting regular quizzes and tests
- Provided individualized assistance to students with difficulty in understanding coding concepts
- Created coding projects to help engage students in learning activities.
